EADO AREA

This area is somewhat densely “muraled,” as many proprietors have commissioned artists to paint mural and cover unsightly walls or augment the landscape to their advantage. The area has seen multiple mural spring up and be painted over during the past few years. Wandering by bike or by foot may be the best as street parking could be an issue (especially during home sports games – Astros/ Dynamos), there are many paid lots. If you do find parking, count yourself lucky! One may find many hidden gems especially between St. Emmanuel and Hutchins. There are many places to grab a drink in the area.

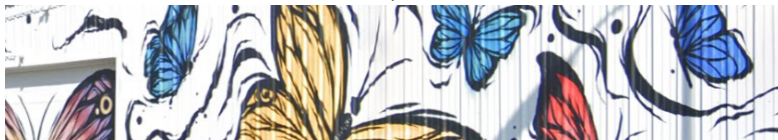

2100 Leeland St Graffiti Park - Various Artists // Variable dimensions // Acrylic enamel & Aerosol // 2013-present

2211 Walker Angel Quesada *Vinatown Dragon* // Oil & Acrylic enamel & Aerosol // 2015

2203 Preston // Studio FLOP // Aerosol paint // 2017

Author's note:

This list consists of works and sites composed of street art murals that attend to the character of the East End neighborhood. All murals are subject to change and while all murals are likely to be at an address listed it cannot guarantee they will be there when you get there. As of April 11, 2021 all of the murals and locations exist as stated. It does not comprise all of the artworks that exist in the general area and is more of a “editor’s pick.” This self guided tour may be followed from top to bottom or bottom to top as the areas are listed adjacent to each other and generally in sequences of groupings by proximity. When snapping a picture and sharing on social media please be sure to do the right thing and credit the artist(s) if possible. Happy hunting!
